Client:

Massachusetts based, privately held pharmaceutical company focused on growth through acquisition and in-licensing products to address significant unmet need. Their mission is to cure devastating disease and their management teams brings extensive industry experience putting life-saving therapeutics into the hands of patients with no other alternatives.

Objectives:

- Be responsible for the coordination, development, tech transfer and product of all drug product aspects.
- Establish external capabilities in drug product development and characterization to design and execute phase-appropriate development of therapeutics from research phase to commercial registration.
- Define science driven, phase appropriate and risk based drug product development strategies to support development projects.

Prestige Solution:

- ✓ Onsite visit to conduct a full needs analysis
- ✓ Implement the Prestige Performance Search methodology
- ✓ Develop unique Performance Profile describing objectives of role
- ✓ Selectively introduce profile directly to target audience
- ✓ Dedicated search until completion
