

Case Study #4626

Head of PreClinical

Search Metrics:

- 4 - Total candidates presented
- 3 – Candidates interviewed
- 21 - Days until hired candidate was presented
- 58 - Days until search completed

Client:

An early stage biomedical technology startup with a novel transdermal drug delivery method of therapeutics.

Objectives:

- Manage the development and execution of high-quality, cross-functional, pre-clinical projects and serve as a training and support resource to the research team.
- Develop and implement integrated and comprehensive data-driven Quality Monitoring activities to ensure compliance with regulatory requirements and SOPs, and to ensure a continued state of inspection readiness.
- Ensure pre-clinical projects/programs are tracked and communicated to the executive team and appropriate functional groups in a consistent and timely manner.

Prestige Solution:

- ✓ Onsite visit to conduct full needs analysis
- ✓ Implement the Prestige Performance Search methodology
- ✓ Develop unique Performance Profile describing objectives of role
- ✓ Selectively introduce profile directly to target audience
- ✓ Dedicated search until completion
